

SCHOOL CODE OF BEHAVIOUR

The Smithton High School code of behaviour is underpinned by the relationships that we build and maintain with our students/staff/parents and the wider community. This is essential for the best teaching and learning to occur. To assist this to happen Smithton High School will focus on the following expectations with regards to improved learning and behaviour.

Research suggests that students are more likely to relate to a code of conduct if they have contributed to the making of that code. Students have developed our school values: LARF – Learn, Achieve, Respect and Fairness.
